

**STRUCTURAL
SURVEYS**

Commercial

North West's leading structural survey engineers

At **Structural Surveys** we help our clients manage their commercial property portfolios in a number of ways. Our Chartered Structural Engineers provide expert, practical advice, enabling our clients to make well informed decisions.

WE OFFER:

- ▶ Pre-acquisition structural surveys
- ▶ Technical Due Diligence reports
- ▶ Structural defect diagnostics
- ▶ Development advice
- ▶ Structural feasibility studies for planned alterations
- ▶ Condition and Dilapidation surveys

Where access is challenging, we collaborate closely with specialist teams making use of unmanned aerial vehicle, rope access, marine divers and laser scanning. We work as technical advisors to developers, architects, project managers and cost consultants, providing very early development advice at project inception and feasibility stage.

Contact Structural Surveys today to discuss your requirements and learn how we can help you...
